

**POLICY FOR PAYMENT OF SCHOOL BOARD MEMBER'S SALARY**

In order to comply with the request of the Tax commission of the State of New Hampshire and that of the New Hampshire State Auditors, the following policy is suggested:

1. That the Office of the Superintendent of Schools be empowered to pay Board Members only for actual time served on the School Board.
2. That payment to School Board Members be made at six month intervals – this to fall on the second pay period in the months of September and March.
3. In the event that an individual school board member wishes payment other than on those approved dates, this may be done by contacting the Superintendent of Schools. The payment will be made for the months he has served as a school board member.
