

STAFF HEALTH AND SAFETY

MEDICAL EXAMINATIONS

The following policy on medical examinations is established to comply with laws enacted by the New Hampshire General Court:

All members of the School District's staff shall have a medical examination by a licensed physician. This examination is to take place within one (1) year prior to employment or within thirty (30) days after employment and shall be reported by the physician on a form provided by the Office of the Superintendent of Schools.

A Mantoux tuberculin skin test (PPD) is required within three months prior to employment or within thirty (30) days after employment.

The cost of the above mentioned examinations shall be borne solely by the employee.

The Superintendent may, at his discretion, require additional medical examinations from time to time in order to insure the employee is medically capable of performing his/her designated assignment.
