

TEACHER PROTECTION

When a teacher reports to the Administration that a physical attack or serious threat has been committed against the teacher within school jurisdiction which constitutes or may constitute criminal assault, the Administration shall promptly inform the School Board. If applicable, notice shall be given the parent or guardian and a formal hearing shall be initiated in compliance with school district policy and relevant law.

If the teacher decides to report the offense to the police authorities or if the teacher is in doubt, opportunity will be provided for the teacher to confer with the school district counsel to advise the teacher of his or her legal rights, responsibilities and options given the circumstances.
